

# InstantID® International Search Page

Please note that depending on your product subscription, you may or may not have this search feature available.

**Fee** This search form carries an incremental, per transaction cost. To avoid any  
**Notice** additional fees, please use your browser's "back" button.

The InstantID® International search works best if you enter as much information about the individual that you have. This search verifies the input information with databases from the country of residence and completes multi-source data comparisons to maximize accuracy. Indications will be given if the phone number does not match with the name and/or address.

**NOTE:** You must enter information in all required fields. Providing information in optional fields increases your search precision and is helpful when searching common names. The use of Boolean search connectors is not permitted with this search request.

The **searchable fields vary by country** and your input screen changes upon selection of a country in which to perform your search.

Need assistance with your search form? Please review the definitions below.

## **Report by Country Example for Canada**

Use the drop down box to choose the country you want to search.

*Example: **Canada***

This is a required field

## **Last Name**
